important measure in Harijan welfare, the D P H has repeatedly brought out that a large amount would be needed for such Malaria measures as Harijan Welfare bears consideration if this proposal would admit of application in the manner proposed

According to the Budget 2/1/42 of the Harijan welfare Department for the year 1941-42, the closing balance is a minus figure

The object for which the Govt have proposed to contribute is no doubt a very laudable one but the Harijan welfare Govt has not at present got the wherewithal to pay it. In the circumstances, the proposal may be sanctioned, subject to the condition that the amount may be paid up to when a large portion of the money by voluntary agency required for the purchase of the X Ray plant is subscribed & when the major portion of the arrears of taxes in the taluks as collected it should not be allowed to be paid by reappropriation especially when the closing balance is a minus figure
